PROFILE

Security Engineer with **3+ years of hands-on experience** securing cloud-native and Kubernetes environments across **multi-cloud, hybrid, on-premise, and private cloud** infrastructures. Specialising in the design and implementation of end-to-end security architectures spanning **CNAPP, CSPM, CWPP, KSPM, and AppSec** domains. Experienced in translating complex threat landscapes into actionable security programmes — from vulnerability identification and compliance alignment to incident response and DevSecOps pipeline integration. Adept at working across engineering, compliance, and leadership teams to deliver security postures that are **audit-ready and genuinely resilient**.

PROFESSIONAL EXPERIENCE

Security Engineer
03-2023 – Present

AccuKnox

- Developed and executed a robust security assessment program, mitigating vulnerabilities in critical IT systems.
- Managed a SIEM system, providing real-time threat detection and incident response.
- Designed security controls for cloud environments ensuring adherence to ISO 27001, CIS, NIST, and SOC 2.
- Utilised CNAPP solutions to manage multi-cloud and Kubernetes security posture for enterprise clients.
- Coordinated continuous compliance and vulnerability management in container orchestration platforms.

AppSec Intern
01-2022 – 06-2022

CyberXplore Pvt Ltd

- Performed Web Application, Network, and Android Penetration Testing.
- Prepared detailed pentest reports of findings.

PROJECTS

Sandman
github.com/th3-v3ng34nc3/sandman

Unified security scanning CLI (Go) wrapping Trivy, Opengrep, OWASP ZAP & ClamAV. Covers image, secrets, SAST, DAST, IaC, and malware scans. Supports Linux, Windows, Docker & CI/CD.

Sandman Web
sandman-web-seven.vercel.app

Web-based VAPT Reporter — streamlines creation, management, and delivery of Vulnerability Assessment and Penetration Testing reports.

Sandman PT
github.com/th3-v3ng34nc3/sandman-pt

Automated VAPT orchestration framework. Chains 15 industry-standard tools into a single pipeline, correlates findings, and scores them with CVSS × EPSS risk scoring.

EDUCATION

B.Tech — CS & Engineering
2019–2023

Lovely Professional University

Phagwara, India · Minors: Cyber Security

Senior Secondary School
2017–2019

Patna Central School

Patna, India

Secondary School
2013–2017

Indian Public School

Hajipur, India

CORE SKILLS

- Cloud Security
- Kubernetes Security
- DevSecOps
- Penetration Testing
- Risk Assessment
- Compliance (CIS, NIST, SOC2)
- Identity & Access Management
- Vulnerability Management
- Incident Response
- Security Audits

CERTIFICATIONS

CKA — Certified Kubernetes Administrator
Linux Foundation · 10-2023

C|EH — Certified Ethical Hacker
EC-Council · 03-2022 – 03-2025

eJPT — Junior Penetration Tester
eLearnSecurity · 07-2021 – Present

ACHIEVEMENTS

- Employee of the Month ×2 — exceptional dedication and performance.
- Most Dedicated Employee (quarterly) — exemplary customer security management.
- Introduced DPDP, RBI IT Framework & RBI CSF, and SEBI CSCRF compliance into the product.
- Implemented centralised SIEM for faster threat detection and incident response.
- Top 1% on TryHackMe — sustained practical pentesting ranking.
